

Enterprise Users in the age of On Demand

———— We are living in the Age of On Demand ————

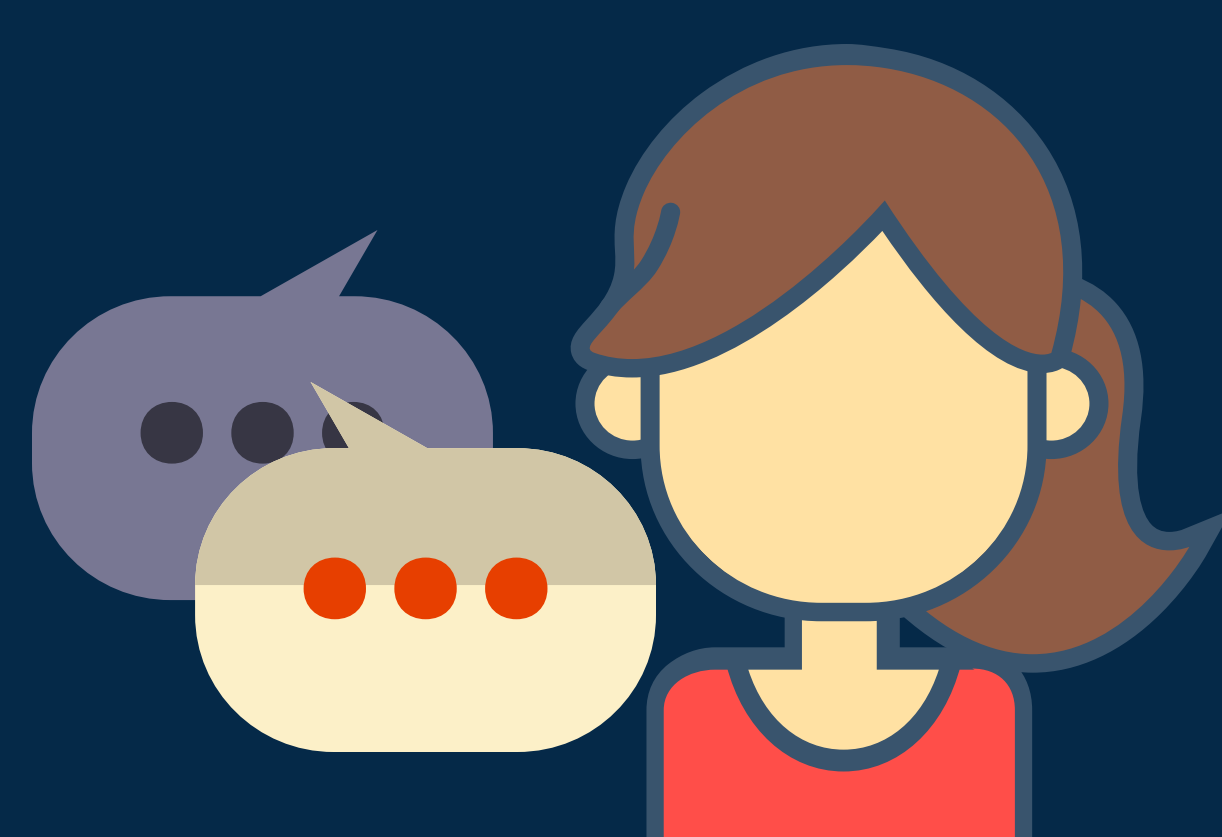

Are your Users able to find Tips, Tricks, Tutorials, Best Practices for CAD/PLM/Enterprise Applications?

Enterprise Users don't like waiting

Users would wait ten minutes for their PC to boot, now we expect technology to work at the click of a button or the tap of a screen

Enterprise Users expect instant answers

Users are used to communicating quickly and easily through instant messaging, social networks and email, rather than the means of communications of the past

Enterprise Users expect personalized content

User expect technology to adjust to them in real time and not the other way around like in the past

Punditas AI Platform can help!

Punditas AI based Knowledge Centric system automatically finds patterns in Enterprise Product content to deliver pertinent Just-In-Time Tips, Tricks, Tutorials, Best Practices to CAD/PLM/Enterprise Users
